WORK EXPERIENCE

- **Company :** Docklands Creative
- **Job Type :** Internship
- **Duration :** 02/2021 – 05/2021
- **Description:** Worked as web Designer in the Docklands Creative at university of East London. I had Secured this internship in my university as a part of internship period. Worked on developing the website and designing the website using WordPress. I had learned many things as intern, build my presentation and communication skills.

PROJECTS

1. GOOGLE – EXTENSION (PERSONAL):

Had done this project to gain experience on the developing and coding.

- Role: Developer
- Project duration: 1week.
- Project Name: Lead Saver
- Project Description: I had created this google extension which saves important website links (works like bookmarks) I had done this project using JavaScript, HTML, CSS. I have used local storage (setItem, getItem, clear) which helps to store data in the browser, I have used if statements and for loops in this project.

2. WEBSITE – ECOMMERCE (PERSONAL):

Had done this project to gain experience on the developing and coding.

- Role: Developer
- Project duration: 2weeks.
- Project Description: Recently I had created a clothing website using only JavaScript, HTML, CSS without any framework used. I have uploaded in GitHub. This Project took me 3 days of time to complete. In this project I have mainly used JavaScript functions, if else statements, for loops, map(), reduce() and filter() work. And I had implemented innerHTML and usage of local Storage where the data is stored in the browser.

3. Portfolio - FRONT END PROJECT (PERSONAL):

I have done this project using React.js

- Role: Developer, Front End Developer
- Project Duration : 3weeks.
- Portfolio : tarunreddykavadi-portfolio.netlify.app
- Project Description: This is one of my favourite project using the modern technology React.js, Email.js, Map.js. This is fully front end project where you can find my skills as a front end developer.
